Are you interested in putting northern Ontario `on the map` with investors and buyers in industry sectors and geographic markets important to northern Ontario? If so, consider this dynamic position that the Ministry of Northern Development and Mines has available.

In this role you will have the ability to lead and participate in projects that will assess economic development and provide input into the development of marketing and promotional materials for national and international markets, as well as represent the ministry on tours and at industry events to raise the profile of northern Ontario and build awareness of trade and investment opportunities. This position will allow you to prepare and oversee the completion of economic analysis, reports, presentations and briefing material as well as participate in sector reviews to evaluate and make recommendations on program initiatives.

One of five northern Ministry of Northern Development and Mines offices, location negotiable with successful candidate – 5570 Highway 101 East, South Porcupine, 159 Cedar Street, Sudbury, 70 Foster Drive, Sault Ste. Marie, 435 James Street S, Thunder Bay, 200 First Avenue, North Bay

**Qualifications:** demonstrated communication, networking, relationship and consensus building skills to provide advice, input, recommendations as well as to build networks, foster multi party agreements, undertake consultations and drive investment and sector growth; analytical skills to lead research and collect information as well as to interpret and evaluate complex issues, determine cause and effect relationships and results from proposed strategies; knowledge of economic theories/principles to identify sector concerns and issues and make recommendations to support investment, attraction and economic growth in northern Ontario; knowledge of international economics and international investment regimes, stakeholders and strategies in order to gauge proper venues, initiatives and proposals; project, administrative and financial management skills to assess feasibility of an undertaking, develop business case/results based plan submissions and manage multi disciplinary projects, studies and initiatives; leadership skills to manage large and complex research projects or sector initiatives involving multiple stakeholders and team members.

**Posting Date:** Friday, November 21, 2008

**Closing Date:** Tuesday, December 09, 2008

Applications must be received by the end of the closing date with the Job ID number quoted.
