Are you looking for a career where you can provide Geographic Information System (GIS) expertise while working in an open-concept, multi-disciplinary team? Would you like to utilize your natural resource management and information technology background, while growing your career in a dynamic and innovative organization?

We are looking for a professional to coordinate specific project components related to the delivery of the information management activities of the Thunder Bay Geomatics Service Centre. You will provide advanced GIS and remote sensing support, including assisting in GIS project analysis, coordinating GIS projects, conducting analysis using GIS and/or remote sensing software, and designing simple and complex maps. You will also conduct queries, generate detailed project reports, and respond to requests for various types of information products. Providing assistance in the maintenance and development of Internet and Intranet sites, and the automation of GIS tasks, will also be components of this role.

**Qualifications:** knowledge of GIS/remote sensing concepts in vector and raster data models, map projections, scale and resolution, accuracy and precision; experience with digital map production, spatial data management and GIS analysis; organizational skills and ability to prioritize work within tight deadlines; communication skills and the ability to work effectively within a multi-disciplinary team and with non-government clients and partners, as well as the ability to work independently; knowledge of and experience with GIS software, including ArcGIS; knowledge of natural resource management principles and management techniques; experience with file transfer, file management, Internet technology, Windows operating systems, network protocols, and peripherals; knowledge of and ability to use computers and software applications, including word processing, databases, electronic mail, and spreadsheet applications.

**Posting Date:** Friday, November 14, 2008

**Closing Date:** Friday, December 05, 2008

Applications must be received by the end of the closing date with the Job ID number quoted.
