

NOTICE: Effective January 15th the OPS will be posting new job advertisements on the eCareers website daily. New job advertisements will be posted throughout the week, Monday through Friday. Please check the site regularly to see new opportunities available within the OPS.

Please note that the **job alert** function is temporarily unavailable. We are working on correcting the issue, but in the meantime, please check the website regularly for updated job posting details. We will post an updated message on the site when the job alert function is functional again.

Job Ad

Ministry: Ministry of Northern Development and Mines
Division: Ontario Geological Survey Branch/Resident Geologist Program
Position Title: MINERAL DEPOSIT COMPILATION GEOSCIENTIST
Duration: 2 Permanent
Location: South Porcupine, Thunder Bay
Compensation Group: OPSEU
Salary: \$1,101.11 - \$1,347.15 per week*
Position Status: Open
Job Code: 14504 - Geoscientist 2
Schedule: 6
Category: Science and Engineering
Job ID: 16997

Are you a professional geologist looking to join a dynamic team where you will play a key role in contributing to the sustainable development of the province's earth resources?

If so, then consider this exciting opportunity with the Ministry of Northern Development and Mines, Resident Geologist Program, Ontario Geological Survey, where you will conduct independent compilations and metallogenic assessments of all known mineral deposits in Ontario. You will conduct field investigations in all areas of the province of precambrian and paleozoic metallic and industrial mineral deposits as well as office based data compilation leading to the creation of high quality maps, reports and presentations. You will also liaise, at technical and general levels with colleagues and peers as well as representatives from the minerals industry, governments and the public.

One position located at Ontario Government Complex, Highway 101 East, South Porcupine
 One position located at 435 James Street South, Thunder Bay

Please indicate which position(s) you are applying for.

Qualifications: advanced knowledge and understanding of geoscientific principles, theories and practices related to geology and geoscience disciplines such as economic geology, mineralogy, structural geology and lithogeochemistry with an advanced knowledge of precambrian/paleozoic geology acquired by means of a degree in earth sciences and experience in the relevant field(s); demonstrated experience conducting field based geological studies and property visits pertinent to mineral occurrences, including geoscience data collection and examination of mineralization, and sampling, as well as data interpretation and digital database management; demonstrated research, evaluative, analytical and problem-solving skills; strong communication and presentation skills to interact and collaborate effectively with professional staff and a broad range of clients and to organize and present geoscience information to diverse stakeholder groups; interpersonal and team work skills; well developed planning, organizational and project management skills; demonstrated experience with computer software and hardware relevant to geoscience applications including databases, spreadsheets, word processing and sound working knowledge of geographic information systems (GIS); certified as Professional Geoscientist with Association of Professional Geoscientists of Ontario or eligibility for membership in APGO; valid driver's licence to travel to sites throughout northern Ontario to complete field work.

Posting Date: Monday, May 11, 2009

Closing Date: Tuesday, June 02, 2009

Applications must be received by the end of the closing date with the Job ID number quoted.
